## PUBLIC HEALTH MONOGRAPHS

1955 Titles, Numbers 25-35

U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE  
MARION B. FOLSOM, *Secretary*

PUBLIC HEALTH SERVICE  
LEONARD A. SCHEELE, *Surgeon General*

THIS INDEX to *Public Health Reports* is divided into two parts: a subject and an author index.

In addition to the subject headings, categorical headings include: ADMINISTRATION, ANNOUNCEMENTS, APPOINTMENTS, CONFERENCE REPORTS, DEATHS, EVALUATION, EXHIBITS, FILMS, FRONTISPICES, GRANTS AND FELLOWSHIPS, IDEAS, LEGAL NOTES ON PUBLIC HEALTH, PUBLIC HEALTH MONOGRAPHS, PUBLICATIONS, RECRUITMENT, REVIEWS, TRAINING COURSES AND PROGRAMS.

Titles of articles appear as entries under the appropriate subject heading, followed by the author's name in brackets. One asterisk before the page number indicates an original article; two asterisks indicate a Public Health Monograph, published concurrently with *Public Health Reports*.

Illustrative material on the inside of the front cover of each issue is indexed by month under the heading "FRONTISPICES." It is recommended, therefore, that the covers be included in a bound volume.

A compiled annual list of Public Health Service publications may be obtained from the Public Inquiries Branch.
